REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1-6 are allowed over the prior art of record. The prior art of record fails to teach the membrane including the composition and claimed properties made by extrusion process using no air gap (liquid-liquid membrane precipitation). Reference to Yen et al uses a small air gap. The liquid-liquid membrane precipitation in an extrusion bath directly produces a membrane with distinct internal morphology, due to the elimination of solvent evaporation by air, and the effect of other factors controlled during the process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
